HOMEWORK #1
- Recreate these 3 files in SolidWorks
- Dimensions do NOT matter, however the constraints are very important
- Note where the origin is in each file
- Submit via sakai
- Save files as LASTNAME_FIRSTNAME_HW1a
- So my files would be PAVLOU_M_HW1a, PAVLOU_M_HW1b, and PAVLOU_M_HW1c

1a) NOTE ALL THE CONSTRAINTS SHOWN IN THE FIGURE

1b) Here, all the circles are concentric, and all the lines are of equal length. 2 lines are parallel and 2 are perpendicular. Make the center of the circles the origin.

1c)
